Compromise Is Possible on Rights-of-Way

CAMDEN (A) -- Leaders of both ides indicated possible willingness o compromise in the right of way controversy between the Highway and the Arkansas County Judges' Association here last night.

Commission chairman Raymond Orr told a citizens' group that th Commission practice of offering to nprove roads in specific localities in return for assurance of free rights of way constituted "not polley but procedure" and added "H we decide we're wrong we're go ing to change it."

The entire Highway Commission, Dorector and assistants arrived in Hope shortly after 11 a.m., today and following a lunch at Hotel Barlow the group is scheduled to meet with District Highway workers at the local shops later this afternoon. Details of the luncheon will be published in Friday's Star.

Quachita County Judge Milas C Reynolds, president of the Count 'Judges' Association who attended the meeting later told newsmen that what he personally objected lo was the Commission's insistence that rights of way be delivered free of fences, dwellings and sim-Orr did not touch on this point,

Missiles to **Protect Big** Industries

WASHINGTON IM- Guided mis siles will protect key centers of population and industrial areas in the United States as part of the Army's defense system.

Although it was announced last March that work would start this summer on the setting up of guided missile anti-aircraft units, no details have been divulged on how far the work has progressed, or in what areas it has been under-

No official list of the cities which will get guided missile units has been issued but speculation has centered on a list of areas which include New York, Chicago, Detroit, the Ohio-Connecticut complex, the Buffalo-Niagara Falls area, Pittsburgh, Philadelphia, San Francisclo, Los Angeles, Seattle, Boston Washington Baltimore and others. It has become known that the Army will require an average of 9 facres for a battalion using the Nike guided missile to protect cities against any swift high flying encmy bombers. Pronounced the winged goddess of victory in Greek mythology.

The 1,000 mile an hour missi

is gnerally supposed to have these features:

An overall length of about 20 feet, a body diameter of approximately 18 inches. Fins which control its flight, similar to those of an airplane are about three feet in span. The total weight is about 10,000 pounds.

The missile presumably is driven by the thrust generate dfrom the burning of two types of liquid fuel. Without specifying the Nike, the Army said nearly a year ago enemy planes can dive. climb, bank, side-slip or turn tall, but the Army's new weapons still will knock them out of the skies.

A couple of young anglers, Mary Elizabeth Warmack of Hope and Bobby Stewart of Nashville Rt. 2, copped top honors in the Fishing Rodeo last week-end opensored by Better Fishing, Inc. The catch was made at Sutton's Lake.

Bobby won a fly rod for catching the largest fish, a one pound, four ounce bass and Mary Elizabeth won a fly rod by catching a nine ounce bass, the largest in the girl's division.

Moses Scores TVA as Tax **Dodgers**

MEMPHIS (A)-Arkansas Power and Light Company Board Chairman C. Hamilton Moses today lashed out at the Tennessee Valley Authority, charging that it is losing money, not paying its share of taxes and taking untair advantages of neighboring states.

Yet, Moses said in an address prepared for delivery before the Memphis Rotary Club, "Arkansas has boosted itself faster than Tennessee, despite more than a billion dollars of tax money poured into

'In one side of the Mississippi River is the TVA. It's the federal government in business, taxpayerowned. Congress-controlled, paying only token taxes, without regulation, and enjoying other subsidies That's the government ownership

"On the other side of the river is the Arkansas Power and Light Company. We are highly taxed and regulated, must pay a full return on all money invested in our property. . . That's the private enter-

But, the private utility executive added, Arkansas' per capita income has increased 276 per cent since 1939, compared to Tennessee's 261 per cent. Other increases in that period cited by Moses

DAMPSTROLL-It was warm, so Alex London, England, decided put on his walking "shoes" and take a stroll down the Thames. His shoes in this case are skis, each of which is, in effect, a miniature boat with a keel. Wozniak pushes himself through the water with two ski poles which have cork floats at the He plans to "walk" the English Channel in the future.

AT idling speed, the engine of this 1953 Buick

is deceptively docile. All you hear is a silken whisper, a kitten purr, a smooth flow of air channeling quietly through metal passageways.

Then - you want to go, You nudge the pedal, You go.

That's when you discover that you're sitting behind an engine of electrifying response. That's when you begin to know how the power

of the first Fireball VS can bandle getaway, cruising, bill-climbing. That's when you learn what Buick's highestcompression engine in fifty great years can mean

in spirited and soul-satisfying road command. It's an experience too wonderful to miss - the bossing of this brilliant new V8 Engine that powers every 1953 Buick Super and ROADMASTER.

So we cordially invite you to come in and try it.

We cordially invite you to hold rein on this truly advanced V8-the world's first V8 with vertical valves, with "T" type intake manifold, with zeropower-loss muffler-and the first standard-production American passenger-car engine to reach 8.5 to 1 compression ratio.

Why not come in for a sampling?

That way you can also try the other Buick gems -like Twin-Turbine Dynaflow*-and the Million Dollar Ride - and the room and visibility and handling ease of the greatest Buicks yet. Can you make it this week?
